

Economy Quick Acting Dispensing Valves

ME821-6

Featuring **all stainless steel** internal components allowing for use in both LP Gas and NH₃ applications.

Application:

These dispensing valves provide the user with instant full-on, full-off flow with the added protection of a self-locking handle to prevent accidental opening of the valve.

Features:

- Ductile and stainless steel construction
- Handle is self locking and rotates 360°
- User friendly handle is large enough to Operate easily with gloved hands
- Includes 1/4" FNPT plugged port
- Half the weight of standard quick acting valves at "2.25 lbs."
